

Stevens' Summer Research Fellowship Application
Department of Chemistry, University of Missouri–Columbia

—research program for outstanding undergraduates considering graduate studies—

Please note: It is our hope that the community health situation and University policy will allow us to resume the Steven's Summer program in 2021. However, the program may be subject to cancellation/modification at a later date.

Program Details

- Program Dates: June 7 – July 30, 2021 (8 weeks)
- Stipends: \$4900 (\$2450/Month)
- Transportation Allowance: 1 round trip
- Tuition: 1 credit hour of research paid
- Assistance: Information for locating housing

Application Checklist

- Attached Application
- Unofficial Transcripts
 - Must have grades posted from the fall semester
 - Must have current courses for the winter/spring semester listed
- Personal Statement (approximately one page)
 - Include previous research experience
 - Include educational and career plans for after graduation
 - Include a brief summary of your research interests for this summer and beyond
- Letter of Recommendation (one required and two preferred)
 - One letter must be from a science faculty member
 - Must be a current or former course instructor or research advisor
 - Second letter is optional
 - Should be a professional reference and may not be from a relative
- Resume (preferred but not required)

Application Delivery

- Applications are due by March 1, 2021.
- All application materials should be submitted electronically.
 - PDF files are preferred.
 - E-mail to gradchem@missouri.edu
 - Place "Stevens' Application Material" in the message subject line.
- If applications must be mailed, use the address below.
